Flattop Versatility

The unique flattop cooking surface and wide range of controllable cooking temperatures makes the Evo grill perfect for cooking any meal. Whether cooking for two or hosting a party of twenty, Evo is center stage helping you create memorable experiences with family and friends.

By cooking foods directly on the cook surface, you can sear, sauté, grill, toast and stir-fry. Indirectly, you can use pots or pans to boil, braise, poach or steam. With a few accessories you can create even more amazing meals. Enjoy your outdoor living area more by cooking every meal outside—breakfast, lunch, dinner and even dessert, on your Evo grill.

GRILL

Cook right on the flattop!

TOAST

SAUTÉ

STIR FRY

Cooking rapidly over sizzling heat while stirring briskly.

STEAM

Squeeze water on food then cover with a lid to steam. Add more liquid and repeat until done.

SEAR

You get a caramelized, deep-brown sear (= flavor) with the Evo grill. When the oil starts to shimmer and smoke, you're ready to add the meat!

ROAST

Turn your Evo grill into an oven with a roasting pan, rack and lid. Spatchcock turkey is one of our favorite roasted dishes.

Place a rack underneath the food and cover with the Evo lid.

BAKE

SMOKE

Place flavored wood chips or Evo "Smoke to Taste" canister on cook surface, place food on a roasting rack and cover with a lid.

About the Cooktop

The exceptional performance of Evo's circular cooking surface is the result of a single, slightly-crowned piece of steel that's formed with a flanged edge to trap heat, then oil-seasoned multiple times to promote a natural non-stick cooking surface.

The Evo cooktop is manufactured from a mild steel which helps retard oxidation. The Evo cooktop is pre-seasoned before shipping and ready for use. Clean the cooktop after every use and maintain the seasoning by applying a very thin layer of high smoke point oil after each cleaning.

Advantages of flattop grilling versus open-flame:

- NO flare-ups!
- Multi-zone cooking temperatures eliminate overcooking, undercooking and burning.
- Expand your grilling repertoire from steaks, burgers and hot dogs to pancakes, eggs, bacon, stir fried rice, yakisoba noodles, fajitas, crab cakes and more. The possibilities are endless.
